Pretentious Boxing Program Set For Viking, Wednesday, October 12

C. A. Dupre Provides Real Bill of Sport for Pugilistic Fans
—Mike "Kap" Kaplansky, of Edmonton,
Consents to Referee Matches

Followers of the padded mitt and the "squared circle" are all agog over the coming boxing show to be staged at the Elks' Hall, Viking on Wednesday evening, October 12, under the sponsorship of the Viking Elks Lodge and under the careful and able management of C. A. Dupre, who has put over several realistic shows here during the past few months.

Looking over the list of talent that has been lined up for the festive occasion we note that the one and only Curly Kid, of Irma, will box in the main event with the Athabasca Kid (colored) as his opponent. Curly is training hard for this event and expects to stop this big boy from the north as soon as he can. The colored lad has a good reputation and this match is going to make the fans guess whose going to be the winner.

For the semi-final Lefty Lukens, also of Irma, is taking on John Larsen of Forestburg in a four round bout. Lukens is a corner and packs a wallop, but Mr. Larsen claims a lot of experience in the U.S. that is going to count.

George Desmond, of Kinsella, and Charlie Close, of Minburn, have been matched for a four round go. We hear these lads are there with the mitts. George has appeared in a local show before and Close is a boxer from the old country. This ought to be a nice match, me lads, and lassies.

Horse Breaks Five Ribs Mrs. Wm. Renn, Bruce

Bruce, October 3rd.
When Mrs. Wm. Renn, wife of a farmer living south west of Bruce, tried to harness a driving mare last Wednesday morning the animal crushed her against the stable wall, causing serious injuries. The only other person home was a daughter-in-law, Mrs. Ewald Breikier, who is the mother of a baby ten days old. Mrs. Breikier hurried to the nearest house, and neighbors went for Mr. Renn and son, who were threshing five miles away.

A call was sent through for Dr. S. J. Farrell, Holden, who arrived and immediately removed the injured woman to Viking hospital where it was found that her injuries consisted of five broken ribs and a fractured collar-bone. Mrs. Renn was brought home on Thursday and is reported to be improving. No reason is ascribed to the actions of the horse, which is a quiet animal except that she was anxious to leave the stable and turned about too quickly for Mrs. Renn to avoid her.

In a three round exhibition you will see fast men with their dukes, Geo. McLean, of Irma, and Geo. Scott, of Cleveland, Ohio. McLean has boxed in Detroit, and was amateur champion of the auto city in 1930. Scott has trained with some of the best boxers in the states. As the weights of these two boxers are somewhat too uneven they will only box an exhibition match, but they will be well worth watching.

As a three round opener, Ron McLaren, of Viking, and Eddie Schumm, of Forestburg, will strut their stuff with the gloves. Both are noted as fast and should provide plenty of action for the curtain raiser.

The referee for the bouts is Mike "Kap" Kaplansky, of Edmonton. Mr. Kaplansky is well known throughout northern Alberta for his refereeing and coaching, and his presence as third man in the ring assures the fans that everything will be carried out in the very best possible manner.

Reserve tickets are selling for \$1.25 and rush seats \$1.00. Everybody is talking about going, so meet your friends at the arena on Wednesday, October 12.

Wedding of Local Interest Falkland, British Columbia

Viking, Alta., Oct. 5th
FALKLAND B.C., Sept. 26.—The United Church was the scene of a pretty wedding on Saturday evening when Ruth Alberta, second daughter of Mr. and Mrs. A. L. Ferguson, became the bride of Edwin Ernest Gotobed, son of Mrs. E. Gotobed.

The church had been decorated with autumn flowers and the ceremony took place under a white wedding bell. The Rev. A. Crisp officiating. The bride wore a dress of white satin, ankle length, trimmed with lace and long veil held in place with orange blossoms. She carried a bouquet of carnations and maidenhair fern. Her bridesmaid, Miss Thelma Clark, wore a dress of pink felt crepe and her bouquet was composed of white asters.

The groom was supported by John C. St. Laurent.

The wedding supper was held at the home of Mrs. Gotobed at which only relatives of the bride and groom were present.

Later in the evening a dance was held in the hall to which all were cordially invited. A pleasant time was spent till midnight when supper was served. Mr. and Mrs. Gotobed will reside in Falkland. —Vernon (B.C.) News.

NOTES OF INTEREST OF BUSY KINSELLA

Kinsella Alta., Oct. 5th

Mr. and Mrs. P. J. Wangness and family visited the latter's brother, Mr. Otto Lund at Bruce on Sunday. Mr. and Mrs. Ross McFarland and family of Irma and Mr. and Mrs. Charles Riley of Hardisty spent Sunday with Mr. and Mrs. R. L. Eaton. Miss Ella Cormack spent the weekend at her home north of town.

Mrs. Lief Pederson and infant son returned home on Sunday from the Viking hospital.

Mr. T. Stephenson of Niagara Falls has been spending the past week with his brother-in-law Mr. W. L. Ferries, left for his home on Tuesday.

The anniversary service of the United Church will be held on Sunday October 16th. Rev. Gordon of Tofted will be the speaker, and there will be special music furnished by the following: Solo by Mr. R. S. Nense, two selections by the choir, and a solo by Rev. Gordon. The chicken supper will be held in the basement of the church on Monday evening, October 17th. Adults 25c; children 15c.

Irma Branch No. 112 of Canadian Legion B.E.S.L. Unveiling War Memorial

All members of the above named branch and all other veterans of Irma and district are asked to meet at the postoffice, Irma, on October 23rd, at 12.45 P. M. in civilian dress with all medals, for the purpose of proceeding to Jarro's for the unveiling of Jarro's War Memorial.

Any veteran intending being present and wishing transportation from Irma to Jarro, is asked to notify me by mail or phone, so that arrangements can be made.

The above branch of the Legion in meeting last night, laid down their baggage for the Poppy Campaign, and it is hoped that last year's success will be increased this year.

All school teachers in rural schools will be canvassed during the next two weeks, also the Village and High schools in Irma and Jarro.

A good supply of small and large poppies will be on hand, also orders for sprays and wreaths, at nominal prices, will be solicited.

These poppies, sprays and wreaths, as far as it is possible to supply the demand, are all made in Alberta by disabled veterans.

The Ladies' Auxiliary of the Canadian Legion are assisting in the Poppy Campaign this year.

A memorial service will be held on November 11, at 11 a.m., particulars of which will be given at a later date.

W. E. INKIN, Secy.

WEDDING BELLS

Hadlow - Locke

A quiet wedding was solemnized at the home of Mr. and Mrs. Locke on Saturday, October 1st, when Mr. Marjorie Locke and Mr. Bruce Hadlow were united in marriage by the Rev. Mr. Geeson. Those present were Mrs. Geeson, Mr. and Mrs. E. Ford and family, Mrs. E. Simmonds and infant son, the bride's parents and her brother Ray. A fowl dinner was served. Later in the evening Mr. and Mrs. Hadlow adjourned to their new residence, "the shack in the hollow." Many friends in the district join in extending congratulations.

PUBLIC NOTICE

Any civilian or veteran intending to be present at unveiling of War Memorial at Jarro on October 23rd and having space room in their cars, and, who are willing to help with transportation problem, are asked to please let me know how many they have room for.

Parade falls in at 12.45 P. M. as per Canadian Legion notice.

All cars will please park, as far as possible, on East side of Main St., Irma, leaving the post office block clear.

We thank you in advance.
W. E. Inklin, Secretary-Treasurer,
Irma Branch No. 112, Canadian Legion B. E. S. L.

Liberals Pass Many Resolutions At Killam Meet, Sedgewick Cons.

Audience Hears of Financial Side of Province's Affairs—
Since 1921, Debt Has Risen from \$57,000,000.00 to
\$142,000,000.00, as at June 30th, 1932

Killam, Alta., Oct. 1st
A well represented and enthusiastic meeting of supporters and members of the Sedgewick Constituency Liberal Association was held in the Recreation Hall, Killam, on Friday, September 30, at 8.30 p.m., 1932, with the president, H. G. Thunell, of Viking in the chair.

The minutes of the previous meeting of the association held at Killam on May 11, were read by J. H. Sayers, secretary, of Killam, and approved by the meeting.

The main purpose of the gathering was to select delegates to attend the provincial Liberal convention in Edmonton on Friday, October 21, to elect a provincial Liberal leader, and to revise and enlarge the Liberal platform to meet present conditions.

A nominating committee was appointed consisting of J. McDonald, Loughheed, D. McNaughton, and W. McAtthey, Viking, who brought in a slate of delegates and alternates which was approved by the meeting.

The resolution committee, consisting of C. G. Purvis, Viking, L. J. Sheppard, Alliance, and J. Murray of Killam, brought in the following resolutions which were unanimously adopted:

1.—It is hereby resolved that this meeting of Liberals in Sedgewick Provincial Constituency assembled at Killam this 30th day of September, 1932, go on record as having complete confidence in our National leader, the Hon. MacKenzie King, and his associates and the policies enunciated at the last general election in the Dominion.

2.—Be it further resolved that this meeting go on record in expressing confidence in our former provincial leader, Mr. McDonald, regretting his resignation, and that we pledge our support to whomever may be elected in his stead.

3.—Be it further resolved that this meeting go on record as expressing our deep regret at the untimely death of the late Fred Britton, a former member of this association, and that the secretary be instructed to advise his widow accordingly.

4.—Whereas on December 31st, 1921, the public debt of Alberta amounted to \$57,000,000.00, and whereas on June 30th, 1932, the public debt of Alberta had amounted to about \$142,000,000.00.

And whereas this debt has increased in the past fifteen months by the shocking amount of \$25,000,000.00.

And whereas there is no visible reason for such an abnormal debt; and whereas this debt and the excessive cost of carrying it will have to be paid by the present and future generations who live in and make their homes in Alberta;

And whereas we are convinced that our future individual and collective progress will be crippled by this burden of debt;

Therefore, be it resolved by this assembly that it is in our interests and in the interests of all residents of this province that a thorough investigation into, and audit be made of every spending department of the Provincial Government covering the past five years by a commission independent of the government and not dependent of the government for the purpose of determining the sources of governmental waste and unnecessary expenditure, in order that the same may be immediately removed;

5.—Whereas, for various reasons, many of our farmers find it increasingly difficult to pay their debts, and whereas in turn their creditors usually find it correspondingly difficult to pay their debts, and whereas, owing to the generally extremely low prices of primary products of farmers and businessmen, there is little likelihood of any early recovery from such position;

Now therefore, be it resolved that we, the Liberals of Sedgewick Constituency assembled to go on record as being in favor of an independent Commission being appointed with representatives in each central trade point throughout the province, and that this commission be given power to confer with any debtor, making application thereto, and his creditors, with a view of formulating a policy whereby the debtor may continue in his present avocation without the necessity of going bankrupt, or of having legal costs added to his already too heavy burden;

And whereby mutual arrangement may be made for the extension of time for paying, or for the reduction of such debts, and the manner in which such arrangements may be carried into effect.

6.—The principal address of the evening was delivered by the Hon. Chas. Stewart, ex-premier of Alberta, and ex-minister of the Interior. Mr. Stewart touched on provincial finances and conditions during his term of office as premier, and minister of public works, as compared with the present administration, showing an increase in public debt of over \$80,000,000.00 with no visible improvements, with the possible exception of highways, which would naturally follow due to increased motor traffic. Other public utilities are not being enjoyed by the public due to increased taxation and rates such as they were under the Liberal regime in this province.

Mr. Stewart gave a vivid picture of Dominion affairs. He also forecast a very interesting session of the federal parliament which opens October 6th.

The meeting closed with the singing of the National Anthem.

Farms and Farm Mortgages

In these days when so much is heard of the burden of mortgage indebtedness carried by the farmers of the Dominion, and more especially of Western Canada, the official figures contained in the bulletin recently issued by the Dominion Bureau of Statistics at Ottawa, and which are based on information compiled in the census taking of last year, are of more than passing interest. Furthermore, they are important and encouraging in that they dissipate the prevailing impression that, with but few exceptions, the farms of Western Canada are under heavy mortgage. The fact is that two out of every three farms in Canada have no mortgage debt, and while the number of mortgaged farms is naturally higher in a more recently settled country like the three prairie provinces, even in these provinces less than one-half of the farms are mortgaged. This is quite different from the oft-repeated assertions that 80 to 90 per cent. of all Western farms are mortgaged.

This census bulletin is replete with interesting and valuable information, but space will permit mention of only a few of the highlights of the report. Of the 728,664 farms in Canada in 1931, full owners of farms numbered 586,299, part owners and part tenants 67,942, and tenants only 74,382, with 41 unclassified in the Yukon.

While the number of "full owners" decreased by 28,842 in the ten years elapsing since 1921, the number of part owners and part tenants increased by 27,978 and tenants only by 18,437. In the three prairie provinces fully owned farms comprise 77,064, 201 acres, and rented farms 32,718, 401 acres. Of the partly owned and partly rented farms in these three provinces, 16,078,801 acres are owned and 15,773,536 acres rented.

The average size of all farms in Canada is 224.48 acres, the average size in Ontario being 118.86 acres and in Quebec 130.58 acres, but in the West the average is much larger, it being 279.19 acres in Manitoba, 490.15 acres in Alberta, and 407.95 acres in Saskatchewan.

The value of land in farms in Canada is stated to be \$2,704,760,300, Saskatchewan ranking first with \$781,124,800, Ontario second with \$377,437,900, Alberta third with \$252,272,500, Quebec fourth with \$122,100,400, and Manitoba fifth with \$200,270,300.

The value of buildings on farms in Canada totals \$1,341,463,000, Ontario coming first with \$487,009,300, Quebec second with \$256,178,200, Saskatchewan third with \$223,944,900, Alberta fourth with \$137,333,900, and Manitoba fifth with \$88,389,200.

Combining land and buildings values, Ontario is first, Saskatchewan second, Quebec third, Alberta fourth, and Manitoba fifth. Coming back to the subject mentioned in the opening paragraph of this article, "Mortgages," it is to be noted that at the census of 1931 every farm owner in Canada was asked, for the first time, to state the total mortgage on his farm. The mortgage debt reported under this inquiry included not only the debt secured by an instrument called a "mortgage" but also debts protected by deeds of trust, judgments, or by other legal instrument that partakes of the nature of a mortgage and which has the same legal effect. The answer to this question did not include debts covered by crop liens, nor debts secured by liens on implements, machinery or live stock. Nor did the inquiry apply to farms or parts of farms rented.

The tabulated results show that 244,201 farms out of the total of 728,664 farms in Canada, or 33½ per cent. were mortgaged to the aggregate amount of \$677,564,100, or 16½ per cent. of the value of all farms, and approximately 50 per cent. of the value of owned farms to which the inquiry was restricted.

Out of a total of 192,174 farms in Ontario, 71,604 reported mortgages amounting in all to \$201,751,900, or 37.26 per cent. of the total. The average mortgage in Ontario was \$2,818, and the ratio of mortgage to the value of all farms 16.95 per cent. The figures for Quebec and the Maritime Provinces are considerably lower.

Contrasting Ontario with the three prairie provinces we find: Manitoba—54,199 farms; 18,949, or 34.96 per cent. of the total, reporting mortgages amounting to \$60,070,100; average mortgage \$3,170; ratio of mortgage to value of farms 20.81 per cent.

Saskatchewan—136,472 farms; 56,587, or 41.49 per cent. of the total, reporting mortgages amounting to \$177,620,800; average mortgage \$3,139; ratio of mortgage to value of farms 23.67 per cent.

Alberta—97,406 farms; 34,305, or 35.22 per cent. of the total, reporting mortgages amounting to \$108,463,700; average mortgage \$3,162; ratio of mortgage to value of farms 16.37 per cent.

It will be seen, therefore, that in these newer provinces the percentage of farms mortgaged is not much higher than in old settled Ontario; that the average mortgage is not much larger; and that the ratio of mortgages to the value of the farms is lower in Alberta and Saskatchewan and only slightly higher in the case of Manitoba—a truly remarkable showing for this newer country, much of it still in the pioneering stage of development, and a showing that should be of encouragement for the future.

Children's Roll of Honor

Many Names On Record in County Hall, London, England

In one of the corridors of the County Hall, London, England, on a Roll of Honor, there are the names of nearly 400 school children who have received Royal Humane Society awards for saving, or attempting to save, persons from drowning at great risk to themselves. This Roll is one of the most cherished possessions of the London Schools Swimming Association, which for 40 years has been doing splendid work among children. The ages of the brave children range from ten to 14 years.

An instrument has been devised by which the applause in an audience can be measured as to its intensity and duration.

Troubled With Her Children Having Summer Complaint.

Mrs. L. E. Montgomery, Ave. K. South, Saskatoon, Sask., writes: "I am the mother of two children and have a great deal of trouble with them having summer complaint, in fact, several times every summer they were subject to attacks. 'I have found Dr. Fowler's Extract of Wild Strawberry to be the most effective remedy and keep it always handy and give it immediately on the first sign of any bowel complaint. 'Thanks to 'Dr. Fowler's' I no longer dread the summer months."

Static Eliminator Proves Successful

Device Was Invented By British Post Office Engineer

The bane of every radio listener is static. Nothing is more annoying to one who has made up his mind to enjoy a particular programme than to have it utterly ruined by interference.

Despite the tendency of a few American writers to sniff a little at the British Broadcasting Company, there are several ways in which British listeners have the advantage over listeners on this side of the Atlantic. There is the absence of advertising, of course, and the B.B.C. can do what American networks have not yet made a practise of—send two programmes over the same wavelength, thus giving more room on the air and eliminating interference. Now they have a static eliminator which definitely does what it claims to do, that the British Post Office has officially taken up the invention and is urging listeners to buy one and attach it to their sets. The device was the brainchild of a Post Office engineer working in a Government research laboratory. It is guaranteed to eliminate interference from street lamps, vacuum cleaners or any other electrical apparatus.

Radio is making gigantic strides in Great Britain. British manufacturers have figured on a turnover this year of \$150,000,000, or 1,500,000 new sets, at an average price of only \$85, compared with an average of \$125 last year.

There are 300 exhibitors at the radio exhibition in London's Olympia this fall. Britain has about 5,000,000 receiving sets in use now, and listeners can tune in on some 200 stations in Europe.—St. Thomas Times-Journal.

Increase In Indian Population

More Indians In Canada Now Than Ever Before

Department of Indian Affairs officials expressed the opinion there are more Indians in Canada now than when the first white man landed in this country. The 1931 census of the Dominion gives the total number of red men as 122,930, compared with the last department census total of 108,012.

United States has an Indian population of 332,297 according to the 1930 census. Canada's population is divided:

Ontario, 3,368; British Columbia, 24,599; Manitoba, 15,417; Saskatchewan, 15,268; Alberta, 15,258; Quebec, 12,312; North West Territories, 4,046; Nova Scotia, 2,191; New Brunswick, 1,865; Yukon, 1,543; Prince Edward Island, 233.

Give No Autographs

The King of England and his son, the Prince of Wales, have turned thumbs down on autographing. George Bailey Beak, the British consul-general in Boston, announced that his majesty and his royal highness have laid down as a rule never to give their autographs, and that no exception to this rule can be made in any circumstances whatever.

Persian Balm creates and preserves lovely and youthful complexion. Tones and stimulates the skin. Fragrant as a flower. Cool as morning dew. Swiftly absorbed by the tissues, making the skin wonderfully soft-textured. Unrivalled as an aid to feminine elegance. Delightful to use. Imparts additional charm to the fairest of women. Persian Balm is the one toilet requisite for the exacting woman. Fearless as a beautifier.

Where Aurora Is Clearest

Returning from his cosmic ray expedition along the northwest shore of Hudson Bay, Dr. Arthur H. Compton, Chicago scientist, was in Winnipeg on his way to his home in Michigan. The point of greatest intensity of "northern lights" is directly about Churchill, he declared. From where he was at Chesterfield Inlet, the lights were to be seen only by looking directly south.

Douglas' Egyptian Liniment makes the finest blister known. Invaluable for rheumatism, neuralgia, and other natural and healthy condition. Hair comes back! No scar remains.

Canada's Wood Pulp Exports

The total quantity of wood-pulp exported from Canada in 1930 according to the figures lately issued by the Dominion Bureau of Statistics, in co-operation with the forest service department of the interior, was 760,220 tons, valued at \$39,059,978. The average value was \$51.38 per ton.

Stranger: "I've come out here to make an honest living." Native: "Well, there's no competition."

The poison used by some South American Indians for their arrow tips was called curat.

"The prettiest dress at the picnic" everybody said

"I must tell you about going to a big, all-day picnic," writes a woman from a roadside restaurant along the Lackawanna Trail, demonstrated his invention to a group of witnesses. Beans talked over his home-made tubeless and wireless telephone for 30 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beans' set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beans, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed, and central exchange operated in the same manner as at the present time. Development and establishment of this science will save an enormous operating cost, he believes.

Beans also declared that he could show science the cause of the fluctuation of the magnetic needle as a result of extensive experiments which, he says, were successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

Women Loggers Work At Vancouver Inlet

Are Making Good And Not Avoiding Tough Spots

Logging has always been classed as work for men—and hard-muscled, brawny men at that. But over at Deep Cove, across the Inlet from Vancouver, husky young women are engaged in this industry. And they aren't avoiding the tough spots either.

One woman recently exhibited five cords of shingle bolt which represented her work for the week. "It's hard work all right," she admitted, "but it gets easier as you go along. At first it was heart-breaking and I felt that my back would snap in two, but my muscles are pretty hard now. It's amazing all right, and I'd sooner be working here in the woods than some where down in the stuffy city."

The women loggers aren't all burly specimens of their sex. One woman is the mother of three children. She is only about five feet tall, and if there are muscles in her arms they are well concealed. But with the aid of a patient horse she managed to handle a prodigious amount of fallen timber during a day.

Help For Asthma. Neglect gives asthma a great advantage. The trouble, once it has secured a foothold, fastens its grip on the bronchial passages tenaciously. Dr. J. D. Kellogg's Asthma Remedy is daily benefiting cases of asthma of long standing. Years of suffering, however, might have been prevented had the remedy been used when the trouble was in its first stages. Do not neglect asthma, but use this preparation at once.

Rush Seems To Be Over

People Are No More Crowding Into United States

Apparently the rush to America as a land of opportunity for people of all races has come to an end. Free land which is still available is not worth cultivating. Jobs are at a premium here as they are in every other part of the world. The American economic system has arrived at a period of maturity when phenomenal growth can no longer be expected. The waste places have filled up, and industry has grown to a point considerably beyond consumption needs. Henceforth the economic development of the United States should be slower and more steady.—Washington, D.C., Post.

To have the children sound and healthy is the first care of a mother. They cannot be healthy if troubled with worms. Use Mother Graves' Worm Extirminator.

Visitors to the library of the British Museum number more than 1,200,000 every year. There are over 4,000,000 volumes on the sixty miles of shelving.

The Latest Invention

Mail Carrier Demonstrates Wireless Telephone Without Any Tubes

What is believed to be the first wireless telephone communication without tubes in transmission and reception was accomplished recently when Walter Beans, proprietor of a roadside restaurant along the Lackawanna Trail, demonstrated his invention to a group of witnesses.

Beans talked over his home-made tubeless and wireless telephone for 30 minutes over a distance of more than 100 feet. A head-set and mouth-piece was set in one building and a similar apparatus in another some distance away. Beans' set was operated on a six-volt battery, and practically all the parts were made by the inventor, who has been experimenting for some time.

Beans, who was formerly a mail carrier at Doylestown, Pennsylvania, said that the time is near when wireless, tubeless telephone systems can be installed, and central exchange operated in the same manner as at the present time. Development and establishment of this science will save an enormous operating cost, he believes.

Beans also declared that he could show science the cause of the fluctuation of the magnetic needle as a result of extensive experiments which, he says, were successfully terminated on March 9, this year, leading to the wireless and tubeless telephone.

A Big Undertaking

Factory Moved With No Loss Of Working Time

A complete engineering factory has been removed from London to Chippenham, 94 miles away, without the loss of a single working hour.

At the end of every working day for three weeks a number of the machines were dismantled and removed to the new factory. They were immediately installed and were ready for work again the following morning.

Every employee, with his family and household effects, moved to Chippenham during the time that the particular piece of machinery which he was his work to tend was being moved. Thus he finished work in London in the evening and started work at Chippenham the following morning.

Altogether, 750 tons of machinery, the furniture of 36 families, and more than 100 people were moved.

Diet Requires Fats

Fats Constitute a Protection Against Tuberculosis

A notable fact is that diet plays a most important part in combating tuberculosis. After the German occupation of Warsaw there was an alarming increase in tuberculosis, because the Germans removed as much fat of all kinds as they could with the aim of making high explosives. When the people of Warsaw were able to return to a diet containing sufficient fat, the tuberculosis declined rapidly. It is generally accepted that a diet rich in fats constitutes a definite protection against tuberculosis. Efforts made to reduce dust in factories are also cited as a contributory cause of the decline, as well as sanitation, water supply, and personal hygiene.—Montreal Star.

Do not allow worms to sap the vitality of your children. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

Monaco Faces Bankruptcy

Financial Position Of World's Smallest Municipality Is Serious

Monaco, the world's smallest principality, in which is located Monte Carlo, famous gambling center, has been hard hit by the world depression, and the consequent unemployment is causing grave alarm. M. Bouillon-Lafont, vice-president of the French Chamber of Deputies, has been made minister of state for Monaco. Prince Louis himself has been conferring with the French ministry and from this it is evident that he regards the financial affairs of his country as serious. As a matter of fact, the principality is threatened with bankruptcy.

Barrister: "What possible excuse did you fellows have for acquitting that murderer?" Jurymen—Insanity. "Really! The whole twelve of you?"

A lipstick factory 3,500 years old has been discovered on the Danube.

IN TEARS WITH PAIN OF RHEUMATISM

"For six weeks," a woman writes, "I had rheumatism, mostly in my feet and wrists. In fact, I have been in tears with the pain. Owing to stomach trouble, I could not take any kind of medicine, as it made me feel sick. So a lady said I should try Kruschen Salts. I am very thankful that I did so, for now I feel completely restored. I have not been taking anything else, so it must be Kruschen that has relieved me."—Mrs. C.

The six mineral salts of Kruschen have a direct effect upon the whole bloodstream, neutralizing uric acid, which is the recognized cause of rheumatism. They also restore the eliminating organs to proper working order, and so prevent constipation, thereby checking the further formation of uric acid and other body poisons which undermine the health.

Wilkins Is Planning Smaller Submarine

Will Likely Be Ready For Polar Trip Next Year

Sir Hubert Wilkins, the Arctic explorer who dashed for the North Pole in the submarine "Nautilus" in 1931, has been in Oslo, Norway, arranging for a possible new under-water attack on the Pole next year.

Sir Hubert, who went to Oslo to confer with Prof. Harold Sverdrup, one of his companions on last year's expedition, says that he will use a new submarine only half the size of the "Nautilus," and carrying a crew of ten.

It is expected that the new vessel will be much easier to handle than the "Nautilus." The machinery will not be so complicated and therefore less affected by the cold.

The submarine, to be built either in England or Germany, will be 120 feet long. The new craft, shaped much like an airship, will have an engine developing 250 to 350 horsepower. The cost of the submarine will be about \$100,000.

Sir Hubert estimates that the building of the submarine will take about six months, and that the expedition will be ready for a start in 1933.

Part of the crew will be Norwegian because of their experience in the Arctic. Sir Hubert hopes that Prof. Sverdrup will take part in the expedition as scientific leader.

The object of the expedition will be not only to cross the North Pole under the ice but to reach a point between the North Pole and Alaska, where scientific observations can be made.

Trust Funds Safe

Ontario Check-Up Reports Everything Intact

All trust funds of the Ontario government and moneys of commissions under government are intact and in good financial condition, Hon. W. H. Price, acting premier and attorney-general, announced after completion of a thorough check-up of audits instituted following the recent disclosures in Manitoba. The funds so involved would amount to several hundred millions of dollars, in principal and yearly turn-over.

"The policy carried out by the government has been to have continuous audits of public funds," declared Colonel Price. "The government is placed in the position in all departments to ask for information at all times. While some inquiries have been made, the public can be satisfied that all our trust funds, under the statutes and various commissions of the government are intact and in good shape."

A Pertinent Question

An elderly lady walked into the Bank of England and presented a parcel of War Loans. "Is this for conversion or redemption, madam?" asked the official. "Young man," was the reply, "is this the Bank of England or the Church of England?"

The first thing a man with a new automobile runs into is debt.

DR. HAMILTON'S PILLS

FOR HEADACHE INDIGESTION BILIOUSNESS CONSTIPATION

Success Crowns Efforts Made To Save Antelope Herds In Their Native Habitat

Canada's success in bringing back the buffalo has been acclaimed by wild life conservationists in many parts of the world, but little has been said of her successful efforts in saving the prong-horned antelope in its native habitat in Western Canada. The march of settlement in the West made disastrous inroads on the numbers of these timid animals and when their condition was brought to the attention of the Dominion Government immediate action was taken through the Department of the Interior to establish reserves for their protection and propagation. In 1914 the first sanctuary to be established was that to be later known as Wawaskey National Park, an area of 54 square miles in southern Alberta about 75 miles east of Lethbridge. Early in 1915, an area, later to be known as Nemiskam National Park, about 25 miles north of Medicine Hat, Alberta, was set aside for the protection of antelope in that district and since then the success of the Department's efforts has been most remarkable.

The main work in the conservation of the antelope is taking place at Nemiskam Park since the area of eight and a half square miles comprising the sanctuary is fenced and a definite record of the progress of the work can be kept. The herd of approximately 425 antelope in this park represents the results of an interesting experiment. Previous to 1915 efforts at raising antelope in captivity had been unsuccessful owing to the effects of the shock of capture. Consequently officers of the National Parks Branch of the Department of the Interior, in charge of the work, hit upon the scheme of corralling a herd of antelope on a suitable grazing area. A herd of forty-two animals were observed feeding north of Medicine Hat, and the work of fencing the antelope in without disturbing them was successfully carried out. Since then they have thrived evidently unconscious of their captivity and these graceful native animals are rapidly being restored in numbers.

At Wawaskey National Park, an area of 54 square miles, the antelope which frequent this unfenced reserve are increasing. Concentrations of these animals are noticeably greater throughout the area than previous to the establishment of the park and their future in this part of the province appears assured.

Higher Wheat Price Needed

Would Do More Than Anything Else To Bring West Back

However, taking Western Canada as a whole this will not be a debt-paying year. Most farmers will be able to meet their current bills and their taxes and to provide for seed and feed. The more fortunate ones will also have enough to pay the current mortgage interest.

The crop is big enough to make every few cents advance in price important. Westerners are not looking for higher prices, they are praying for them nevertheless. No single factor could do more to bring back the West than a rise in the price of wheat. Nothing else can do the job alone.—Financial Post.

Money In Pie Business

The pie business has been good in Chicago to George Kanopara, 72. He was peddling individual pies when Policeman John Frye asked him about his license. "I can't afford to waste money on licenses," he said. So the policeman searched him to see just how poor he was. In a pocket of his trousers there was \$7.516.

Miss Margaret Jones, aged 85, has just resigned as bell ringer at the Llanddewi-Aberarth, Wales, church.

"You only married me for my money."
"Just the opposite, dear. Because I had none."—Wahre Jakob, Berlin.

W. N. U. 1961

Wealth From the Land

Increase In Revenue From Alberta's Farm Products Is Expected

Several million dollars' increase in revenue from Alberta farm products is expected in 1932, compared with the 1931 figures, according to financial men.

The 1932 revenue is expected to exceed \$152,000,000 compared with \$147,000,000 in 1931.

Alberta's farm animal production for 1932 will total \$16,000,000 it is estimated. The dairy industry is expected to realize \$12,000,000, while poultry and poultry products may reach \$8,000,000. Miscellaneous commodities, it is believed, will return \$300,000.

These figures, added to \$116,000,000 set as the value of this year's field crops, result in the estimated \$152,000,000 total.

This does not allow for probable increases in market prices. If any improvement in prices occurs the total will be much larger, it is pointed out.

Reducing Temperature

Offices Cooled As Well As Heated By Steam

A system for cooling business offices by steam has been tried with success in Detroit. Steam under high pressure is passed through a nozzle at high velocity where it acts as a pump to remove the air and vapor from a tank of water. This produces a vacuum, cools the water rapidly, and the water is then pumped through cooling coils to reduce the temperature in the rooms. Modern science has thus destroyed another illusion, that janitors only work in the winter months.

(By Ruth Rogers)

SMART AND LOVELY FOR FALL SCHOOL TERM IS THIS WINE-RED TWEED

What about a new woollen frock for early fall school wear? There's loads of style and chic about today's pattern. And it's so simple to make.

Lots of woollen materials will be lovely for it from the woollen fancies to the lightweight tweeds.

You could also make it of rayon novelties and wool crepe.

Quite a smart dainty effect is obtained by the pleated ruffling trim.

Style No. 682 is designed for sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards of 38-inch material with 2 yards of plating.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

Mild Winter Predicted

Cree Indians Say There Will Be Lots Of Snow

Western Canada can prepare for a mild winter with plenty of snow. A late fall and an early spring will cut down the winter far below its usual length. That's the decision of the official weather men of the Cree Indians at The Pas, Man.

Year after year the Indians have been calling the turn on the weather and always correctly. The uncanny skill of the aborigines in forecasting the weather for the coming season is highly respected in the north country. To gain their information they closely observe the actions of muskrats and other animals at this time of the year.

Paris Fighting Ants

Paris is fighting its third invasion of ants. First a swarm of mosquitoes visited the French capital. Then followed a plague of blue flies. This time it is ants. The health department has marshalled all its forces, armed with sprays, disinfectants and other paraphernalia, and is directing an onslaught on the invaders. A number of bakeries near the bourse and other have been overrun by the busy insects.

About nine per cent. of the forest fires are due to railroads, it is said.

China has decided to participate in the Chicago exposition next year.

Churchill Could Have

Handled More Wheat

Shipping Agent Disappointed In Amount Of Tonnage Offered

With the successful clearing from Churchill of all boats in that vicinity, some 2,000,000 bushels of grain will have been exported in the first commercial season of the Hudson Bay route, Thomas Harling, shipping agent, said at Montreal. Eight steamers were chartered this year to carry grain overseas from the northern port.

"It would have been possible to handle a much greater quantity," Mr. Harling said, "and I am a little disappointed that more tonnage did not come out." The area about Prince Albert and Saskatchewan can provide approximately 45,000,000 bushels for shipment through Churchill annually, he said.

Free storage in the elevator at Churchill and elimination of transfer charges had been of assistance in promoting use of the new route, but Mr. Harling expressed the belief that establishment of ordinary rates, such as prevail in Montreal and other ports would have little effect on the volume of shipments next year.

The question of rates at the Hudson Bay port would probably be dealt with in the report of the transportation commission, Mr. Harling said.

Neptune's satellite is supposed to be about as large as our moon and it moves around the planet in a little less than six days.

Exports Of Home Grown Wool Have Developed Rapidly During The Past Few Years

Plymouth Rocks Sent

To Arctic Outpost

Aklavik Residents Look Forward To Having Fresh Eggs

No longer will residents at Aklavik, one of the last outposts in the western Arctic, sigh for nice fresh eggs. Aklavik, which is more than 1,500 miles north of Edmonton and up in the Arctic circle, has had its population increased by thirteen pullets and two roosters, and the residents will have fresh eggs—that is if the hens continue to lay.

G. M. Cormie, provincial poultry commissioner, shipped the feathered flock to F. Stromberg, described as a "poultry fancier of Aklavik." Aklavik has no chickens at the present time, it is stated.

The chickens travelled by train to McMurray and then by boat to Aklavik. They are pure-bred-to-day barred Plymouth Rocks and are five-and-a-half-months' old pullets.

The hens are in good condition to face the long winter darkness of the north. On the trip north they were fed a special laying mash and whole grain to keep them laying until they arrived.

In announcing the trip by the chickens, the poultry branch remarks that civilization is going north. In this connection it might be recalled that a team of horses went as far north as Arctic Red-River by boat last year to do various pieces of work around different posts. At Arctic Red-River children who had never seen horses gaped open-mouthed at them and called them "big dogs."

Imagine The Rest

The somewhat shortsighted, golf er had reached a stage of the game when desperate measures were necessary. Taking a tall tee he smote savagely, and instantly searched the heavens for the ball. "Where did that one go to, caddy?" he asked in accents of great hope. "A couple of feet behind you, sir," answered the boy gloomily.

Irate Parent—"Didn't I see you kiss my daughter, sir?"

Nervy Youth—"How should I know? Do you think I'd be gawking around when I was doing a thing like that?"

HUNTING IN CANADA

WIDE VARIETY OF
BIG AND SMALL GAME

HUNTING GROUNDS
EASILY REACHED

URING recent years there has been an exceptional increase in the number of people of this country who enjoy the sport of hunting and many thousands go afield yearly, with rifle or shotgun. No other section of the world can offer to the sportsman the same favourable conditions as prevail in Canada with its immense areas of virgin territory within rapid and comfortable means of access.

Vast Hunting Areas

This country possesses over 1,000,000 square miles of forest, which shelters game animals ranging from the timid rabbit to the huge and dangerous grizzly bear. Moose, caribou, elk, deer, bighorn sheep, mountain goat, timber wolf and bear are plentiful and may be hunted during open seasons of generous length.

Wild Fowl Abundant

The numerous lakes and ponds of northern Canada are the breeding places of the main waterfowl population of the American continent consequently ducks, geese and other waterfowl are plentiful, in normal years. The ruffed grouse or partridge is the most important upland bird and is common to every province, while woodcock, prairie chicken, Hungarian partridge and ptarmigan provide good sport, in certain districts.

Hunting Grounds Easy Of Access

Accessibility is an outstanding feature of much of Canada's hunting territory. The country is well served by roads, railways and steamboat lines, over which the sportsman may travel in comfort, to the "going in" point. Areas previously inaccessible may also now be reached by airplane in a few hours' flight. Detraining or "going in" points are numerous throughout game areas and at these will be found reliable outfitters and qualified guides, who are prepared to accompany a guide, but, even in those provinces where it is not compulsory, it is often advisable to engage guides. These men, being familiar with the territory in which they operate, are able to add greatly to the enjoyment and success of the trip.

Conservation Of Game

In Canada a practical form of conservation is found in the setting aside of tracts of public lands, as game reserves, and in the rigid protection of game in its extensive national and provincial parks. In these areas the game multiplies rapidly, under protection, and spreads over into the surrounding country. This favourable condition, coupled with sound protective legislation regulating the open

seasons, bag limits, issuing of licenses, etc., assures continuance of a supply of game animals and birds in their native habitat. Canada is thus able to offer the hunter exceptional opportunities for sport in season.

Hunting With Camera

To the camera-hunter and the student of wild life, the Canadian provinces offer unusual opportunities for interesting experiences and records. There is no closed season on game to the camera-hunter and, throughout the year, he will find favourable conditions to study the habits of game animals and birds and to photograph them in their natural surroundings.

Game Laws Of The Provinces

The game laws of the different provinces are drafted by the provincial governments with a view to meeting local conditions; consequently there is no uniform game law for the Dominion as a whole. As these game laws are subject to revision from year to year, persons contemplating a hunting trip are advised to obtain a full knowledge of the current laws and regulations of the province in which they intend to hunt.

The National Development Bureau of the Department of the Interior at Ottawa will gladly supply information on hunting in Canada, by either complying with requests, or referring same to other sources from which particulars desired may be obtained.

Canadian exports of home-grown wool have developed rapidly since the war. They now amount to a yearly average of 7,000,000 lbs.—about 40 per cent. of the whole Canadian production—as compared with only a million pounds per annum in pre-war days.

Prior to 1931, the bulk was taken by the United States, but last year the United Kingdom took the major part of Canadian wool exports.

These facts are revealed in a new report on the production of, and trade in, wool issued by the Empire Marketing board: "Wool Survey: A Summary of Production and Trade in the Empire and Foreign Countries."

Nearly one-half of the world's raw wool, and over two-thirds of the wool entering trade is produced within the British Empire. The world's sheep population is estimated at nearly 800 million head, of which about one-third are in the Empire. They produce between 3,500 and 4,000 million lbs. of wool per annum, and of this amount about 1,500 million lbs., including much of the best wool in the world comes from the British dominions of Australia, the Union of South Africa and New Zealand.

Among the other important producing areas, consisting of South America, the United States of America and Russia, only South America has a surplus for export. The United States of America is largely self-sufficient as regards merino and cross-bred wools, but imports carpet wools. Russia produces almost entirely carpet wools, and imports both the finer wools and wools of the carpet type. Neither of these countries seems likely to assume any importance in the near future as an exporter of raw wool.

After reviewing the development of the sheep population, the wool production and the wool trade of each of the principal countries concerned, together with the course of raw wool prices over the past 40 years, the survey reaches the following conclusions:

There has been no exceptional increase in the sheep population or the wool production of the world in recent years; indeed, between 1928 and 1930 there appears to have been a small decrease in wool production, and although the year 1931, according to the partial estimates at present available, probably witnessed an increase in production over 1930, it is not anticipated that the record level of 1928 will be appreciably exceeded. British Empire countries have maintained their share of the world's sheep population at about one-third, and their share of the world's production of raw wool at about one-half.

In the export trade, in which the share of Empire countries is over two-thirds of the world total, there has been, on the whole, little variation since 1926 in the consignment of raw wool from producing to manufacturing countries, and there would appear to be no abnormally large accumulation of stocks of new wool in the principal exporting countries. At the end of the 1930-31 season, when stocks in certain of the principal producing areas were higher than usual, they still formed only a very small part of the aggregate annual production. No large stocks have been allowed to accumulate through efforts to maintain prices, and proposals to restrict the sales or stabilize the prices of raw wool have been vigorously opposed.

Are Safely Kept

Units of weight and measures are kept buried in England and are dug up every tenth year. The standard yard measure, made in bronze, and the standard pound and kilogram weights, of platinum, are kept imbedded in the masonry of the Houses of Parliament.

The Bulgarian language is spoken by approximately 5,650,000 people.

"Where does this path go to?"
"It doesn't go anywhere. Can't you see how still it is?"—Gutterres Madrid.

St. Andrews-By-The-Sea

Sea bathing in the warm waters of Katy's Cove, St. Andrews-by-the-Sea, New Brunswick, and sun bathing on the shining sands, are two of the most healthful and entertaining occupations of those who visit this popular and smart resort, which centres on the Algonquin Hotel of the Canadian Pacific Railway.

The illustration shows a group of socially prominent people from Canadian and United States cities sun bathing after a most refreshing plunge and includes:—Mr. and the Hon. Mrs. R. M. Redmond; the Hon. Peggy, Hagel and Anne Shaulnessy; Judge and Mrs. Bond; Mrs. Margot Redmond; Mrs. S. Watson; Mrs. R. D. Bell; Mrs. George Ballour; Mr. Donald Markey; Col. Allan Magee; Gordon Shires; Gordon Reed; Miss Dora Magee; Mrs. Nora Walwright; Mr. R. C. Stevens; Miss Canlie, of Montreal; Miss H. D'Arcy, St. Louis; Miss V. Schoonmaker, New York; and D. A. Anderson, Ottawa.

Inset is little Miss Lucinda Marguerite Vauhan of Montreal, who is showing the world what the well-dressed infant wears when about to paddle in the warm water, or build a great big castle on the sands.

Canoe Trips in Canada Lakes and Rivers Provide Numerous Attractions

Opportunities for an Enjoyable Vacation Almost Unlimited

kind of trip to be made, whether one requiring much effort and experience, or one quite free from rapids and portages, the canoeist has only to select his route.

Easy of Access

Although railways and the automobile have provided a means of rapid transport, there are countless places in the quiet of the forest, out of reach of either. It is such places, approachable only by canoe, that invite the adventurer to partake of the wonders of nature. The railways and the development of good roads have however made the majority of canoe routes in Canada easily accessible, and one need not travel far from the majority of Canadian cities before reaching the embarking point of an enjoyable trip.

Forest Beauty

In certain parts one may follow the streams for a long summer outing and never see a village or dwelling, yet civilization lies so close that return is easily possible. Waterfalls, rapids large and small, lakes of singular beauty hidden deep in the forest, and islands covered with pine and spruce trees are among the interesting features encountered en route. In some places one may travel hundreds of miles without meeting obstacles of any kind.

THE requirements for a successful and satisfactory trip by canoe; suitable water, picturesque country and an excellent summer climate, can be found almost anywhere in Canada. The innumerable lakes and rivers make the choice of trips almost unlimited. One can travel for hundreds of miles on any of the great rivers, journeying from lake to lake and portaging where rapids impede or heights intervene. Having decided upon the

amid the constant change of beautiful scenery.

Fish and Game in Abundance

Canadian lakes and rivers are renowned for the variety and abundance of their fish. Brook and lake trout are numerous, the latter often weighing from fifteen to thirty pounds while other species of fish are plentiful. Eastern Canada is well provided with waterways, well suited to travel by canoe. Canal systems, rivers large and small, rapids, falls, lakes, stillwaters and all the requirements for an enjoyable canoe trip, await the devotee of the paddle. Whether it be a cruise through a well settled region, or an adventurous journey through the wilderness, the canoeist will find an almost unlimited number of lakes and streams.

The waterways of western Canada, in days gone by, assisted materially in unveiling the mystery of the great country between lake Superior and the Pacific Ocean. Radiating from lake Winnipeg, are routes of romantic interest. Nestling among the mountains of the coast are many beautiful lakes, and streams that wind through the hills, where sport for the angler and hunter may be found.

Free Information

The National Development Bureau of the Department of the Interior at Ottawa, has prepared a series of four booklets entitled "Canoe Trips," copies of which may be had by our readers free of charge. The series covers the Maritime Provinces, Quebec, Ontario and Western Canada. Further detailed information is available to those who require specific data on any particular trip.

H. G. THUNELL — PROPRIETOR

Here and There

Maintaining her position among world nations as a producer of nickel, Canada led the world in the production of nickel and asbestos in 1931, came second in gold, platinum metal, and cobalt, third in silver and fourth in refined zinc.

Mystery cruises, so popular out of New York, Southampton and Montreal, have come to the Pacific Coast, being ushered in there by the trim little coastal liner "Princess Patricia" of the Canadian Pacific service, which took the first of these cruises recently. The ship had a full sailing list.

The Canadian Open Golf Championship, third of the elite contests featuring yearly in the Royal and Ancient game, will be staged on the course of the Royal York Hotel, Toronto, next year, word to that effect having been received by the secretary of the links from the Royal Canadian Golf Association.

Seventy-seven per cent. of wheat and 61 per cent. of barley in the three western provinces were harvested by September 3, according to the report issued on that date from the general agricultural department, Canadian Pacific Railway, Winnipeg. This result was attributed to the halt in harvesting operations due to heavy rains in wide sections of the Prairie Provinces.

All records for the story of the "Big one that got away" were broken recently when a well-known fisherman hooked a heaver in Vermilion Lakes and played it for five minutes after which the tradition was fulfilled with loss of fly and leader. The hero of the exploit was S. C. Bennett, of Toronto, a guest at the Banff Springs Hotel.

Canadians got a thrill recently when Captain J. A. Mollison, intrepid trans-Atlantic solo flyer, spoke over the air, which he has conquered, from the Mayfair Lounge of the Canadian Pacific liner Empress of Britain. Captain Mollison was heard on 34 radio stations from Halifax to Victoria over a network arranged by the Canadian Pacific Department of Communications. Loud speakers distributed the broadcast to 60,000 visitors at the big exhibition at Toronto.

Though the "Princess Royal" veteran of the Canadian Pacific Railway B. C. Coast steamship fleet has been shipped and is now in the limbo of departed ships, her forecastle bell remains on the air at Ocean Falls, B.C., where it has been installed at the Ocean Falls United Church mission, which ministers to the spiritual welfare of Japanese Canadians.

Official and unofficial delegates to the Imperial Economic Conference went sightseeing in the States last week. Two tours from Ottawa were arranged, both leaving the capital in special Canadian Pacific trains late Friday night, August 12. Shawinigan Falls and Three Rivers were visited by one party, while the other members were cruising down the St. Lawrence from Kingston to Montreal and spending Saturday evening in the metropolis. None of the United Kingdom, Canadian, Australian, New Zealand or Newfoundland or Irish government ministers were able to absent themselves from Conference deliberations, but their delegations were well-represented. Ministers enjoying the trips were Hon. R. C. Henderson and Hon. A. P. J. Forster, South Africa, and Hon. E. W. Moffat, Southern Rhodesia. The Canadian Government was represented by Hon. Arthur Sauvé and Hon. Maurice Dupré, with the Shawinigan party, and Hon. Alfred Durand, with the Three Rivers party, and Hon. A. Stewart, with the other party.

Russian wheat exports from August 1 up to last week totalled 4,384,000 bushels as against 38,264,000 bushels for the same period a year ago.

\$25 Reward!

A reward of \$25.00 will be given to any one supplying information that will lead to the arrest and conviction of any party or parties, molesting or stealing money or supplies from any of the yards owned by me.

—H. W. LOVE

"In Union There Is Strength"

In hard times as well as good times Alberta farmers should work and act together.

ALBERTA POOL ELEVATORS

Tarantulas and Viking Girls Simply Just Dont Get Along

Viking, Alta., Oct. 5th

He was only a spider, with a body a little over an inch in length, but with the eight legs stretched out would measure about 5 inches. His visit to Viking created as much excitement as an elephant in a china shop. When he put his eight eyes on this lovely young lady who discovered him he thought he had never beheld anything so beautiful. Did she reciprocate? No indeed. She not only spurned his affectionate approach, but hurled the broom, ran screaming into the street. Never in her young life had she beheld one of those tropical spiders, and there is now a frank admission that there was nothing joyful about the affair. In fact her dreams have been somewhat affected since, and instead of angels and harps, there have been creatures of the other region.

The Tarantula usually comes to this country hidden in a bunch of harem. Not only his body but his legs are covered with brown fur, like a teddy bear. In fact he looks as though he were ready to occupy a berth in the Arctic, with that overcoat. And those eyes! Four pair. He does not want to be caught napping, so maybe he lets part of them go to sleep while the others are on duty. Never speak up on one of those who I spiders, with the idea of tickling his hind legs, while he sleeps. His idea of kissing is not that of the Flapper. Oh, yes, he likes to throw his arm around and smudge down to business. But it is no mere life affair with him. He prefers to use the teeth. And when he is through with that touch of affection, you know more about a tarantula than you ever did before.

Those who know, tell us that this blue while painful is not nearly so dangerous as commonly believed. It more resembles the poison of the hornet. And unless a number of bites are received, the effect is not fatal. Strange to say the tarantula used as a pet. If you happen to know of a local expert in the training of these chaps, send in his name and address. This spider is still alive and very vigorous and can give any trainer plenty to think about, before he will sing or whistle for entertainment.

Citizens Are Asked to Observe Fire Prevention

By Royal Proclamation the people of Canada are urged to observe the week commencing October 9th as Fire Prevention Week. In the most emphatic manner they are asked to correct those conditions which lead to our immense annual destruction of created wealth and human life. At the present critical period of our national life, the vital importance of using every effort to curtail the fire waste of Canada cannot be questioned.

Records covering the past ten years illustrate in striking fashion the extent of our colossal fire losses. During that period, 407,000 fires in Canada have destroyed property valued at over \$415,000,000. In addition, 3,514 lives were lost in burning buildings and 9,007 persons were seriously injured by fire. These figures do not take into consideration our losses in forest fires.

In the year 1931 there were reported 49,284 fires with a property loss of \$47,120,000. That, however, was not the total cost of fire. To it must be added the incidental cost of insurance protection and the cost of maintaining municipal fire departments and water supplies for fire extinguishing. Including these items, Canada last year incurred an unproductive expenditure of over \$100,000,000 through fire, or roughly \$200 for every minute of the year. Capitalized at 5 per cent this represents the gigantic sum of over \$2,000,000,000, which is only a little less than our national debt. If devoted to programmes of constructive effort, instead of being wastefully dissipated, such a sum would go far towards the amelioration of many of the social and economic ills from which we are suffering at the present time.

Fire waste is real squandering. All

FAIR ENOUGH TO BOTH

Quinte District Plans Harvest Get-to-Gether

A "Community Get-to-Gether" will be held in the form of a social evening at the school Monday, October 17th. A collection will be taken in aid of our church services. Everyone come and do your part to make this Thanksgiving service and the later mid-week social real success.

A rally day program was given at the Quinte school house on Sunday, October 2nd. In connection with this Mr. Bainbridge held a baptismal service, when eight children of the district were baptized.

Next Sunday, October 9th, will be Thanksgiving Sunday and a special service will be held. Sunday school at 11 A. M., and church at 12.

We are glad to welcome to our district Miss McNab, our new teacher, and trust that her stay with us will be mutually pleasant and beneficial.

Threshing is being wound up very rapidly. At present there are four machines working on almost adjoining farms. Mackays are threshing for Harry, Wm. Garden the Kuzys; R. E. Draper, L. Haganson for Thos. place and Truman for W. M. Iles, while of Phillips, while the Poplar Hill company machine is threshing for T. A. Cox.

Mr. and Mrs. H. L. Cooper and C. Brickman spent Sunday at the home of Mr. and Mrs. Wm. Brickman at Mannville.

The regular meeting of the Quinte Ladies Auxiliary will be held at the home of Mrs. Dwight Draper, Thursday, October 20th. A cordial invitation to all the ladies of Quinte and surrounding districts.

Accidents Too Numerous

"Trampled by bull, seriously injured," is a headline in the newspapers. The fact that there have been a score of accidents chargeable to herd sires on western farms during the past year, with about half that number of deaths resulting, should warn the breeders of the dangers of improperly handling their bulls. Local papers are carrying an increasing number of stories of herdsmen who are either killed or seriously injured by a sudden attack from the herd sires, and with the increase in the number of such animals in the province the danger is being greatly increased.

There is an old safe rule that says no bull is to be trusted, and this is the only one that should be followed in the handling of these animals. It is not always the cross, ill-tempered animal that breaks into the headlines after one of these attacks—as often as not the stories state "the attack was entirely unexpected as the animal had never been the least inclined to be cross." Dairymen particularly should remember they are handling animals of a highly nervous temperament, which naturally puts them in a different class than the more placid beef breeds.

Wealth destroyed by the flames is gone beyond recall. Paper values may shrink, stock markets collapse, financial machinery cease to function and commerce itself face bankruptcy but these vicissitudes of fortune destroy no actual wealth. They are but adjustments of our credit structure to meet changing conditions. Canada's ash heap is not built of such abstractions. It is composed of physical values produced by brain and hand and is paid for by means of a gigantic tax that falls inexorably upon every man, woman and child in the land. Through insurance channels, fire waste contributes to the cost of everything we eat, drink and wear. None can evade its impoverishing influence nor can they conscientiously ignore their responsibility to assist in curbing its disastrous consequences.

Here and There

Honey produced in Canada in 1931 totalled 27,837,337 pounds valued at \$2,458,694. Honey is produced commercially in all the provinces of Canada.

Registering an impressive advance in prices over recent years the first batch of Nova Scotia apples in the Liverpool market brought 22s to 25s per barrel as compared with 15s to 16s in 1931.

Great improvement and development over a period of 30 years has been noted in the Canadian seed industry. Last year 3710 seed farms with 12,000 persons occupied in the production and marketing of improved seed were engaged in the industry.

Preliminary returns of maple sugar production in Canada just completed for 1932 show a total yield of 1,744,479 gallons of maple syrup valued at \$2,054,277 and 7,217,000 pounds of sugar valued at \$89,450. This production compares favorably with that of former years.

Cutting of wheat is nearing completion and threshing is well advanced in all the Prairie Provinces, with Manitoba leading, according to a report from the agricultural department of the Canadian Pacific Railway, western lines, dated September 10. Oats and barley at that date were 75 per cent. cut.

Lisa Comandona, Chippewa Indian girl caddy at the Canadian Pacific French River Bungalow, who came eighth in the women's marathon swim at Toronto, recently, has been presented with a purse of \$150. J. G. Strathdee, manager of the Camp, stated that she would be thoroughly trained and would enter the contest annually until she won.

Wheeling airplanes added a roaring farewell to the cheers with which passengers and well-wishers speeded Captain J. A. Mollison on his return to England aboard the Empress of Britain as she sailed on her seventh departure of the 1932 season from Wolfe's Cove, Quebec. The intrepid solo trans-Atlantic flyer was promised a quiet time on his trip by Captain Laid, commander of the Empress.

"I am not running away from the election. I am out of politics and have no vote in the district of Columbia," said Mrs. Woodrow Wilson, widow of the famous United States war-time President, interviewed at the Banff Springs Hotel recently, where she stopped en route to Tokyo, where she is attending the departure of a family connection. Mrs. Wilson motored on to Chateau Lake Louise as part of her tour of the Canadian Rockies.

"I have never seen a more beautiful country or enjoyed a visit more," said Sir Philip Cunliffe-Lister, British Secretary of State for the Colonies, as he said farewell to British Columbia when boarding the Canadian Pacific Imperial Limited on his way to Calgary. He enjoyed his favorite sport, fishing, in that province, where he and his party took four fine fish, including a 17-pound salmon.

ANGLICAN CHURCH NEWS

The service for Sunday, October 9th, will be held in the United Church at 3 P. M. This service will be our Harvest Thanksgiving Service. It is hoped all who can will attend this service, weather permitting.

Rev. C. N. Bateman, Vicar.

Wainwright

Sunday school at 2.15.

The next meeting will be held at the home of Mrs. Bert Long.

The Irma Times Goes to Every Home in District

Modern Cookery Results in Many Good Things to Eat

Oven and Broiled Dinners Demonstrated—North-western Utilities Hosts to Townspeople at Big Dance Friday Evening

Viking, Alta., Oct. 5th
A fair attendance was accorded the two demonstrations of modern cooking by gas on Friday and Saturday, September 30 and October 1. Miss Kathleen Esch, of the Home Service Department of the Northwestern Utilities, had charge of the affair, ably assisted by Miss Dolighan.

"How to cook a whole oven dinner" was admirably and efficiently accomplished by Miss Esch and her assistant. A broiled dinner was likewise well displayed. Then cooking of various kinds of meats for social functions was exhibited and proved highly commendable.

The many delicacies resulting were placed on tables for the benefit of the audience, and proof of their popularity is attested to by the fact that, like summer, they did not last long. After the performance on Friday

evening, the hall was packed to capacity in response to invitations sent out by the Northwestern Utilities to its friends and patrons to attend a dance in the Elks hall. This event proved to be one of the gala events of the season.

Music of a high order was provided by the Silver Club Dance Band of Innisfree. Fox trots, waltzes, square dances, and the French minuet were heartily indulged in. The crowd previous to the supper dance was at least in the neighborhood of 400. Besides the Viking folk in attendance, the following Edmonton people attended: Mr. and Mrs. Danes, Mr. and Mrs. Cohen, Mr. and Mrs. Graham, Mr. and Mrs. Imier (Tofield); the Messrs. Sweet, Solstice and Galloway; the Messrs. Shalin, Swindhurst, Nelson, Allan, Garner and McIntosh.

Personals of the Busy Bruce District

Bruce, October 3rd.
The Bruce Women's Institute holds its regular monthly meeting in the club room on Thursday, October 6. All ladies interested are cordially invited.

Mrs. and Miss Barker and Mr. Scott were visitors at the home of Mr. and Mrs. Jack Reay, Sunday.

Mrs. Grosse of Alton, Alta., accompanied by two children, was a visitor at the home of Mr. and Mrs. A. S. Stambaugh last week.

Mrs. Reay, accompanied by Mrs. Fredericks, visited Vegreville Tuesday.

A week ago when a farmer of the Bruce district was on his way home driving a bay mare and buggy, an accident occurred which was almost fatal to the buggy. About a mile north east of town an Allen-blue Tudor Sedan which has made so many trips to Vegreville that it always turns its nose in that direction when let loose, came in sight. Perhaps it was the heavenly (or at least, unearthly) shade of blue, or perhaps it was the rattle and squeak of the approaching vehicle at any rate, the mare took offence, and at first tried to travel with one leg over a buggy shaft. This mode of locomotion led to a fall in which both mare and shafts were removed from the buggy. Fortunately, nobody was injured, but the buggy "ain't what it used to be."

I SAW IN BRUCE

Mrs. Reay, measuring the cellar way in Henry Laid's new house. The verdict was that anyone could safely rent the house.

Waldie Haight walking 14 miles (his own estimate) in search of a saddle horse. Incidentally, Waldie's route march was confined to one quarter section.

Mrs. Chas. Stewart presiding at the United Church bazaar sale in Holt's store Saturday afternoon.

Editor Tunell inspecting the new Jack Reay bungalow: a Henry Owens creation.

Mrs. Logush returning from the dentist wearing a mouthful expression.

Elizabeth Morrison expressing her high appreciation of social life in the Bruce district.

Hulbert Bahlitz' threshing crew catching a skunk. Some of the boys were able to continue threshing.

Dick Davis back on the job, pounding cold iron, after his spell of in-

disposition.
L. C. Hergott entertaining his Edmonton guests with duck gun and waders on Saturday.

Jack Holt bowing to the ladies with a "Yes, ma'am" and handing out samples of a new kind of porridge.

Lawrence Wilson hitting the high spots with his new "bug."

Joe Heber established in his new quarters behind the Bruce Hardware, and trying out his new "serving machine." Since coming to Bruce, Joe has built up a reputation for neat shoe repairing at a reasonable charge.

Bob Ratke's car, the famous "Hyd-Bid Six," stowed away in Tim Can Alley, reflecting the glory of better days. Bob is now a permanent resident of Ferintosh, Alta.

HELD SOCIAL EVENING.

A social evening was held at the home of Mr. and Mrs. Geeson on Wednesday, September 28th in honor of Miss Marjorie Locke, bride-elect, by the C. G. I. T. The first part of the evening was spent in games, contests and a sing-song after which Miss Helen Knudson presented a silver mounted pyrex pie-plate from the girls.

WORLD HAPPENINGS BRIEFLY TOLD

Sir Ronald Ross, noted authority on tropical diseases, is dead, aged 75.

The adventurous whaling industry may be revived to prosperity on the British Columbia coast as a result of a rise in oil prices of 30 per cent.

Rolling an automobile tire before him, Emery Cross took off from Wexford, Ont., on a seven-year jaunt around the world.

The city of Tarsus, home of Saint Paul, was swept by fire. The flames destroyed 144 houses with the loss of \$100,000.

The admiralty ordered the keel to be laid on October 1 for Germany's third "pocket battleship," to be known for the present as "armored ship C."

For lack of funds Berlin streets have for years been so badly neglected that a number of important thoroughfares have now been closed for heavy trucks.

Mrs. W. Thrift, of Sidcup, England, whose husband was reported missing during the World War, has just been notified that he was killed near Cambrai.

A number of Alberta areas face a potato shortage because of two months of hot weather without rain this summer, according to Calgary merchants.

Sweden is motorized. Of every 100 vehicles one meets on its roads, only 11 are horse-drawn, the annual Swedish Road Congress at Gothenburg, Sweden, was told.

Sir Henry Simson, the physician who was in attendance at the birth of Princess Elizabeth and Princess Margaret Rose, children of the Duke of York, died suddenly of a heart attack. He was 60 years old.

Big Fur Shipment

Furs To Value Of Half A Million Arrive From H.B. Region

A ton and a half of fur from the northern barren lands, principally from along the west coast of Hudson Bay, passed through The Furs, Man., recently, on the way to the markets of the world. The shipment is valued at roughly half a million dollars. The fur—fox, mink, martin—was caught during the past year by Eskimos, Indians, and white trappers in the sub-Arctic wastes. Only the richest and most choice fur was brought down.

From Chesterfield Inlet and other points it was flown to Churchill by the three Junkers' planes of the Canadian Airways, and then loaded on to the famous muskeg train that plies between the northern port and The Furs, Manitoba.

The fur will go by Canadian National Railways to the Revillon Freres Company in Canada and the Hudson Bay Company in London, England.

Epitaph Was Fitting

Tomstone Denier (after several futile suggestions): "How would just a simple 'Gone Home' be for an inscription?"

The Widow: "I guess that will be all right. It was always the last place he ever thought of going."

A: "Do you know your wife is telling everyone you can't keep her in clothes?"

B: "That's nothing. I bought her a home and I can't keep her in that either."

It is so much easier to succeed after the others have quit.

"If that is art, I am a fool."
"Yes, it is art and of the best kind."
—Buen Humor, Madrid.

W. N. U. 1961

Gift For Schenectady

Historical Society

Office Chair Was Once Owned By Thomas Edison

A large old-fashioned chair owned by Thomas A. Edison, in the early days of the Edison General Electric Company, has been presented to the County Historical Society by the General Electric Company. It has witnessed in a sense the whole growth of the electrical industry in Schenectady. Amos Underwood, production manager of the turbine department at the Schenectady works, fell heir to it on the retirement of Langdon Gibson, former production manager of the Schenectady works. Gibson obtained the chair early in his career with the company and carried it with him from office to office.

Believe It Or Not

Earthworms In Australia Attain Length Of Ten Feet

An earthworm, native to south-eastern Australia, attains extreme lengths of ten or twelve feet and diameters of three-fourths of an inch, although the average specimen is only three or four feet long. It belongs to the same species as our common earthworms. The progress of these gigantic worms through the soil is attended by gurgling and sucking sounds clearly audible to persons walking on the surface. Their eggs resemble large olives. Related species which attain a length of several feet are found in parts of South America, Java and other sections of the world.

(By Ruth Rogers)

746

A WRAP-AROUND MODEL FOR YOU IF YOU'RE A WEE BIT HEAVY

Still another smart and flattering style for matrons. And it's cut on the wrap-over lines so becoming and liked. There's a slenderizing bias line at the front and at the back that reduces the hip bulk. The shawl collar is very becoming. And don't you like the shaped sleeve cuff?

So many charming materials can be used for this slim-line model.

The original was plum-brown wool crepe with white pique trim.

It's perfectly stunning in black crepe satin with a canton-faille back. Use the dull back surface for the collar and cuffs.

Style No. 746 is designed in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust. Size 36 requires 3 1/2 yards of 39-inch material with 3/4 yard of 39-inch contrasting.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

CANADIAN DELEGATES GO TO GENEVA

Hon. C. H. Cahan, Secretary of State for Canada (right) has sailed for Geneva to head the Canadian delegation to the meetings of the assembly of the League of Nations convening on September 26. He is accompanied by Madame Charles Fremont (left), who is one of the three delegates representing this Dominion.

A Mark Of Distinction

Ability To Keep Ears Open and Mouth Shut

A man seeking a job advertises in this way in a New York newspaper: "I have just enough brains to keep my mouth shut, my ears open and present a good executive appearance. Do you need a front for your business?"

We suspect the gentleman is not being quite frank with his public. Probably he is a very shrewd, capable person who thinks an air of humility, of self-deprecation, an original line of approach, may achieve the results likely to be denied a more orthodox recital of his good qualities. The fact is, of course, that ability to keep the mouth shut and the ears open is a mark of considerable distinction and a virtue commonly denied to a great many persons. The "front" of "good executive appearance" and nothing to back it up is much more apt to keep his mouth open and his ears shut. If he knows enough to reverse the process he is more than just a front—Ottawa Journal.

Treasures Of Harewood House

Henry Lascelles, Original Owner, Was West Indian Mill ionaire

Harewood House, near Leeds, England, where the King and Queen spent a week-end in August, with the Princess Royal and Lord Harewood, was built about 150 years ago at a cost of £120,000. It took 12 years to erect. The State apartments command a magnificent view of beautiful Wharfedale, and contain some wonderful ceilings, plaques and paintings, as well as some of the finest specimens of Chippendale furniture in the world. Henry Lascelles, the son of the Harewood family, was a West Indian millionaire, and in Harewood House there are nearly 80 massive mahogany doors made from wood grown on the West Indian estates.

Recipes For This Week

(By Betty Barclay)

ORANGE AMBROSIA DESSERT SALAD

(Serves 4-6)

This is a modern version, adapted to salad serving, of the ambrosia, which was Grandmother's favorite company dessert. Ambrosia, by the way, was the food served the Greek gods in their feasts on Mount Olympus. While this ambrosia and delectable combination of orange cocoanut will not confer the immortality given by the ambrosias of the gods, it is a dessert par excellence for better health.

6 oranges.
1/2 cup strained honey,
1 can cocoanut.
Peel oranges, removing skin down to juicy pulp. Cut in slices and cut slices in half—Dip each piece of orange in honey which is placed in a shallow dish, then in cocoanut. Arrange on crisp lettuce leaves. Serve with whipped cream to which a little mayonnaise has been added.

COOKED SALAD DRESSING

1/2 cup evaporated milk.
1/4 cup water.
1 teaspoon dry mustard.
1/2 teaspoon salt.
1 tablespoon granulated sugar.
2 tablespoons flour.
Dash of cayenne.
2 egg yolks.
2 tablespoons butter.
1/4 cup vinegar.
Blend evaporated milk with water and bring to scalding point in a double boiler. Thoroughly mix dry ingredients: Add slightly beaten egg yolks gradually and blend carefully. Pour hot milk slowly over egg mixture, stirring constantly. Return to double boiler. Add butter and cook until mixture thickens, stirring constantly. Heat vinegar, and add slowly. Blend thoroughly. Strain and cool. Makes 1 1/2 cups.

Ceremony Postponed On Account Of Crowds

Final Stone Of Canadian Memorial At Vimy Not Laid

Hanging from the end of a great crane a nine-ton stone is poised over the summit of Canada's memorial at Vimy Ridge while mayors of neighboring towns and other notables are wondering why the ceremony of completion was interrupted.

At the last moment, Brig-Gen. Henry T. Hughes, after conferring with the builders, decided the stone should not be laid. Apologies were tendered to the French guests, who accepted them with graceful gestures and puzzled glances at "the last stone" still hanging far above them.

It was explained afterwards an employee of the Canadian authorities had circulated news of the memorial's completion with misplaced zeal, causing a party of eminent visitors to attend. Brig-Gen. Hughes, whose home is in Victoria, B.C., directed the construction work and intended the ceremony of completion to be private.

Actual completion of the memorial is not expected until the latter part of 1934, as sculptured figures of heroic size are yet to be carved on the higher levels. The topmost figure will be 90 feet above the main platform. One figure on the lower level, representing the spirit of Canada, is already finished.

Towering 125 feet above the Ridge and containing 6,000 tons of flawless stone, the structure commemorates Canadian valor at Vimy. It has been under construction since 1925.

British Speed King Married

Kaye Don Disclosed Fact Before Sailing For Home

Kaye Don, the 40-year-old dapper British king of speed, disclosed the fact that he was a bridegroom as he sailed for home without his bride—21-year-old Ellen Martin, daughter of the wealthy and socially prominent Mr. and Mrs. Leonard J. Martin, of Greenwich, Conn.

She had some "business affairs" to wind up, he explained, but would sail to join him in England, and then they will go to Italy for a honeymoon.

Don said the ceremony was performed in Greenwich, but would give no other details.

He and his bride first met in New York a year ago, when he first made his unsuccessful attempt to take the Harnsworth speed-boat trophy from Gar Wood.

Later Miss Martin went to school in Germany and they continued their courtship in Europe. Don said the wedding was all arranged when he arrived for the races this year.

Veteran Doctor Honored

Kansas People Pay Tribute To Traditions He Represented

When nearly one thousand persons assembled at Mulvanea, Kansas, recently to honor the veteran physician who had used his own arm to the world, they paid tribute not only to an individual but also to the traditions he represented.

The old-fashioned country physician was one of the heroes of his profession. Scientific names now dignify the shrewd psychology he administered along with his pills and powders. Under conditions that would be considered impossible today, he performed many feats of surgery. No mud was too deep and no blizzard was too blinding to keep him from answering a call to duty. The midnight beat of hoofs along the pike usually meant that he had sacrificed another night's rest in order to relieve some one's suffering.

The old-time country doctor is passing. As with the circuit rider and the colporteur, his type will eventually become extinct. But the recent assemblage in Kansas shows that modern medicine can well afford to honor the traditions of courage and duty that thousands of country doctors left behind them.—New York Evening Post.

Education Investment

Money Spent In This Way Is Never Wasted

The nation should spend not less money, but more, on education. An elementary school child costs the public \$65 a year, a secondary school about \$100. Who so foolish as to regard these moderate sums as excessive, or too burdensome for the nation to carry? Every penny spent on education is an investment which brings a hundredfold return. There is no asset comparable to a generation sound in mind, healthy in body, and adequately equipped to fight the battles of life.—London Daily Herald.

A dromedary bears the same relation to a camel as a race horse does to a draft horse.

DEFINITE HELP FOR DWELLERS IN APARTMENTS

Odorless way found to cook fish, cauliflower and cabbage

CANAPAR IS A PRODUCT OF HAMILTON FIRM

Lives there a woman, in apartment, duplex or home, who has not at some time or other reluctantly foregone fish, cabbage, and cauliflower because of the odors they give off when being cooked? Or who has not suffered from other people close by who cooked these foods regularly? Canapar entirely does away with this annoyance. More than that, it actually improves flavor and food value. Cooking in Canapar parallels the famous French method of simmering and confining food and its flavours to the closed casserole. Canapar comes in large sheets, in a handy-size package. When boiling vegetables you simply wet the sheet of Canapar and make a big similar to a pulling bag. If you are steaming them you line your steamer with Canapar, arrange food and seasoning, and fold back corners of the Canapar to prevent steam from dripping back.

Boiled or steamed fish is particularly delicious done this way. No fishy odor in the kitchen, no gummy kettle to clean. When roasting meat, line the pan with Canapar. It prevents the fats and juices from burning, and eliminates scouring of the pan afterwards.

Canapar saves fuel. You can cook three vegetables simultaneously in the same saucepan with it, without intermingling of flavors. And it is very economical. Just rise the sheet after using it, hang it on the towel rack to dry. Use it over and over again.

Lots of women use Canapar for a dish cloth—it is so silky and satisfactory and does not spread lint. This is a particularly good use if you happen to pierce the sheet of Canapar while testing the food during the cooking of it. Canapar is made by the makers of PARASANI the famous heavy waxed paper in the Green Box.

Special Offer
Most grocers, druggists and department stores sell Canapar. If you don't, send the coupon direct and we'll give you a new and unique book entitled "Leftovers" containing one hundred recipes as a bonus for your trouble.

Appleford Paper Products, Ltd., Hamilton, Ontario.
Enclosed find 25c for which please send me one full-size package of CANAPAR Cookery Parchment and your 100 recipes for "Left-overs."

Altitude Records

Two British Pilots Make Claims To New High Records

British pilots, flying at opposite ends of the Empire, have advanced claims to two new aviation altitude records.

Captain Cyril Unwins claimed a new record for land planes, with a flight to 45,000 feet at Bristol. The official record is 43,154 feet, held by Lieutenant Apollo Coucke, United States Navy.

At Port Darwin, Australia, an amphibian attached to the British navy's ship, "Albatross," was reported as claiming a new altitude record for that type of ship, with a flight to 23,000 feet.

It was also claimed that a balloon released from the "Albatross" (without passengers) reached a height of 70,000 feet, or more than 13 miles. This was set up as a record. There are no official records for passenger balloons. Professor Auguste Piccard rose nearly 11 miles over Italy in his latest stratospheric ascension.

Many Veterans Employed

England has completed arrangements for the retention permanently in the government employ of more than 13,000 ex-service clerks, who had been given temporary employment. They will be engaged on a pensionable basis. In addition more than 2,000 temporary women clerks and stenographers are to be given pensionable employment.

Rice was brought to this country by a sea captain, returning from a voyage to Madagascar, in 1604.

"That is my own portrait, painted by myself."

"But how could you paint it with one hand on your stick and a pipe in the other hand?"—Lustige Blaetter, Berlin.

THAT in Vancouver, British Columbia, the Hindu residents have established the Sikh Temple shown above where they carry on their own religious rites under their own priests and leaders? As far as is known it is the only Sikh Temple in North America. Vancouver has a large Oriental and East Indian population.

FOR HEAD COLDS

THE HOUSE OF DREAMS-COME-TRUE

BY MARGARET FEEDER
Author of "The Splendid Folly," "The Hermit of Far East," "Hodder & Stoughton, Ltd., London."

CHAPTER XXXII.—Continued.

"Rest?" she said, "Rest? Do you realize that I shall have all the remainder of life to rest in? There'll be nothing else to do."

She released herself very gently from Tormarin's arms and, crossing the room to the window, stood looking out.

"How funny!" she said in a rather high-pitched uncertain voice. "It all looks just the same—although everything in the world is changed."

He came and stood by her side.

"No," he said quietly. "Nothing is changed, dear. Our love is the same as it was before. Always remember that."

"But we can't ever marry now."

"No. We can't marry—now. You'll never have the Tormarin temper to bear with, after all!"

She laid her hand swiftly against his lips.

"Oh, it was dreadful!" she said, recalling the terrible scene which she had interrupted. "It—it hardly seemed—us, Blaise."

"For the moment it wasn't. It was the Tormarin devil—the curse of every generation. But I think that Tormarin would have said to me: 'You're a devil if you're a devil! I said something about you—and I couldn't stand it.'"

"Was that it? Then I suppose I shall have to forgive you—with a pale little attempt at a smile."

But the half-hearted smile faded again almost instantly.

"Oh, Blaise, what would your temper matter if we could still be together?" she cried passionately. "Nothing in the wide world would matter then!"

Presently she spoke again.

"But it's worse for you than for me. I wish it were more equal."

"How worse for me? I don't understand. Unless—with a brief, sad smile—"you love me less?"

"Ah, you know I don't mean that! But I've only the separation to face. I'm not tied to somebody I don't love. You've got Nests to consider."

"Nests!" He gave a short, grim laugh. "Nests can go back to where she came from."

There was a long silence. At last Jean broke it.

"Blaise, you can't do that—you can't send her away again," she said in quick, low tones. "She's your wife."

"My wife! She seems to have been oblivious of the fact—and to have wished me to be equally oblivious of it—for the last few years."

"Yes, of course she's been wrong, wickedly wrong. But that doesn't alter the fact that she's your responsibility, Blaise. You must take her back."

"Take her back?"—violently. "I'll be shot if I do. She's chosen to live her life without me for the last few years—she can continue to do so."

Jean laid her hand on his arm. She was smiling wistfully.

"Dear, you'll have to take her back," she persisted gently. "Don't you see—she's not wholly to blame?"

You've admitted that. You've blamed yourself in a large measure for her running away. It's up to you now to put things straight, to—give her the chance she didn't have before."

"You're discounting these last few years," he returned gravely. "These years in which she has lived a lie, allowing me to believe her dead—cheating and deceiving me as no man was ever cheated before. She's cheated me out of my happiness—heavily—taken you from me!"

"Yes, I know," Jean's voice quivered, but she steeled it again. "But even in that, she was not solely to blame. You've told me how—how weak she is and easily led away. And she's very young. What chance would Nests have of asserting her will against her sister's, even had she wished to return to you? She ran away from Staple in a fit of temper and because you had frightened her. After that—you can see for yourself—Madame de Varigny is responsible for everything that has happened since."

Tormarin remained silent. The quiet justice of Jean's summing up of the situation struck at him hard.

She waited a moment, then added quietly:

"You must take her back, Blaise." He wheeled round on her violently.

"And you?" he exclaimed. "You? Did you ever love me, Jean, that you can talk so coolly about turning me over to another woman?"

She whitened at the bitter accusation in his tones, but she did not flinch.

"It's just because I love you, Blaise, that I want you to do this thing—to do the only thing that is worthy of you. Oh, my dear, my dear—her hands went out to him in sudden helpless pleading—"do you think it's easy for me to ask this?"

The desolate cry pierced him. He caught her in his arms, kissing her fiercely, adoringly.

"Sweetheart!—Forgive me! I'm half-mad, I think. Beloved, say that you forgive me!"

She leaned against him, glad to feel the straining clasp of his arms about her—to rest once more in his place against his heart.

"Dearest!" she said tremulously, "there is no question of forgiveness between us two. There never will be. We're just—both of us—struggling in the dark, and there's only duty—brokenly—only duty—to hold to."

"They stood together in silence, comforted just slightly by the mere human touch of each other in this communion of sorrow which had so suddenly come upon them, yet knowing in their hearts that this was the very comfort that must for ever be denied them in the lonely future."

At last Jean raised her head from its resting-place and her eyes searched Blaise's face, asking the question she could no longer bring herself to put in words. He met her gaze.

"Jean, is it your wish I do this thing—take Nests back?"

He felt a shudder run through her frame. Twice she tried ineffectually to answer. At last she forced her dry lips to utter an affirmative.

"So be it," she said.

His answer sounded in her ears like the knell to the whole meaning of life. The future was settled. Henceforth their lives must lie apart.

"So be it," said Blaise. "She shall come back and take her place again at Staple."

Jean clung to him a little closer.

"Blaise, I don't know the hardest part will be yours. But mine won't be easy, dear. I shall go to Charnwood to be with Claire at once—tomorrow—and it won't be easy, when I see in an evening the lights twinkle up at Staple, to know that you two are within, shut in from the world together, while I'm outside—always outside your life and your love."

"You'll never be outside my love," he said swiftly. "That's yours, now and forever. And no other woman shall rob you of one jot or tittle of it, were she my wife twenty times over. I will bring Nests back to Staple, and she shall bear my name and live as my wife in the eyes of the world. But my love—that is yours, utterly and entirely. Yours and no other's."

She lifted her face to his, and their lips met in a kiss that was a seal of love and all love's faithfulness.

"So is mine yours," she said. "Now and forever, in this world and the next. Oh, Blaise—beloved!"—she clung to him in a passion of love and anguish and straining belief—"Some day, surely, in that other world, God will give us freedom to take our happiness!"

CHAPTER XXXIII. The Returning Tide

Two months had elapsed since Fate's dividing sword had fallen, for ever separating Jean from the man she loved, and the subsequent march of events, with the many changes involved and the bitter loneliness of

soul entailed, had made the two months seem to her more like two years.

She had left Staple for Charnwood on the day following that of Madame de Varigny's visit. It was no longer possible for her to remain under the same roof with Blaise, where the enforced strain of meeting each other daily, and of endeavouring to behave as though nothing more than mere commonplace friendship linked them together, would have been too great for either of them to endure even for the few remaining days which still intervened before the date originally planned for her departure.

Lady Anne, with her usual sympathetic insight, had made no effort to dissuade her, reluctant though she had been to part with her. For herself, the fact that Nests was alive had come upon her in the light of an almost overwhelming blow. She had never liked the girl, whereas she had grown to look upon Jean as a beloved daughter, and no one had rejoiced more sincerely than his mother when Blaise had confided to her the news of his engagement. At last she would see that grey page in his life turned down for ever and the beginning of a newer, fairer page, illuminated with happiness! And instead, like a tide that had receded far out and then rushes in again with redoubled energy, the whole misery and sorrow of the past had returned upon him, a thousand times accentuated by reason of his love for Jean.

It was with a heavy heart, therefore, that Lady Anne, together with Nick, quitted Staple and established herself for the second time at the Dover House, retiring thither in favour of Nests who was now installed once more at the Manor. And the thought of how gladly she would have effected the same change, had it been Jean whom Blaise was bringing home as his bride, added but a keener pang to her sorrow.

She watched with anxious eyes the progress of events at Staple. At the commencement of the new regime Nests had appeared genuinely repentant and ashamed of her conduct in the past, and there was something disarming in the little, half-apologetic air with which she had at first reassumed her position of chateleine of Staple, deferring eagerly to Blaise on every point and trying her utmost to please him and conform to his wishes. It held something of the appeal of a forgiven child who tries to atone for former naughtiness by an almost alarming access of virtue.

She accepted with meek docility Blaise's decision regarding the purely formal relations upon which their married life was henceforth to be based, apparently humbly thankful to be reinstated as his wife on any terms whatsoever that he chose to dictate.

"I know," she had once said, "but she declared, 'I can't—forgive me—hope for you to love me again—'"

And Tormarin had replied with unmistakable decision:

"No, you can't hope for that. And I'm glad you understand and recognize the fact. Still, we can try to be good friends, Nests, at least."

But this tranquil state of things only lasted for a comparatively short time. Very soon, as the novelty and satisfaction of her reinstatement began to wear off, Nests became more self-assured and, apparently, considerably less frequently visited by spasms of repentance and remorse.

Her butterfly nature could retain no very deep impression for any length of time, and gradually the characteristics of the old Nests—the pettish, self-willed, pleasure-loving woman of former times—began to reassert themselves.

Blaise tried hard to exercise forbearance with her and to treat her, at least with justice and with a certain need of kindness. But she did not second his efforts. Instead, she became more exigent and difficult as time passed on.

She was no longer satisfied by the fact that she was once more installed as the mistress of Staple. She demanded a husband who would surround her with all the little observances that only love itself can dictate, whom she could alternately scold and cajole as the fancy took her, but who would always come back to her, after a tiff, ready anew to play the adoring lover.

(To Be Continued.)

Growing Coffee Beans

Two Russian families are raising coffee on farms near New Bern, North Carolina. The coffee beans are fully developed, and the Russians are well pleased so far with the success of their crop. They raised coffee in their native country.

The teacher of a gliding school in Germany has trained falcons to fly within a limited area so that he can study their soaring flights with the aid of a motion picture camera.

Flush away those ugly

Yellow Stains...

Gillet's Lye cleans closet bowls without scrubbing. Banishes odors, kills germs, frees drains...

WHAT woman doesn't want to get rid of it! The most unpleasant part of house-cleaning. Scrubbing toilet bowls.

Thanks to Gillett's Pure Flake Lye...

This annoying job has been made easy. Just sprinkle Gillett's Lye—full strength—into the water. Off come all stains...without scrubbing. Germs are killed...odors banished.

And more important, Gillett's Pure Flake Lye will not eat away enamel, or destroy the finish of sinks and bathtubs.

REMEMBER—this powerful cleanser and disinfectant makes all your household cleaning easier. Ask for Gillett's Pure Flake Lye.

FREE BOOKLET: The Gillett's Lye Booklet shows you dozens of ways to avoid back-breaking work. Gives instructions for soap making, tree spraying, disinfecting on the farm. Write to Standard Brands Limited, Fraser Ave. and Liberty St., Toronto, Ont.

Never dissolve lye in hot water. The action of the lye itself heats the water.

GILLETT'S LYE EATS DIRT

THE RHYMING OPTIMIST

By Aline Michelle

LOVES WORDS

Love has few words. Each threadbare phrase

Has rung through countless lovers' vows

Since Caesar sought Egyptian ways

And Jacob served in Rachel's house

So poor are they, so old, so weak

Such foolish and such futile things

In vain does every lover seek

New speech to lend his longing wings.

So poor? But, ah, how sweet, how dear

They fall upon the eager ear

The words of love that still each fears

And bring the sense of heaven near

So it must be old loves bestow

Their worth, till treasure waxes

Over vast

And love's few words the richer grow

From all the passion of the past.

Captures Honors Again

Mlle. Odette Pious, the world's speed-typing champion, has again won the championship of the French Typing Academy at Royen, France, making the seventh successful time for her to capture the honors. She averaged a speed of 90 words a minute copying unknown text and 120 words a minute for sentence repeated over and over. She also won the regularity championship. Mlle. Pious became the world word champion last October in Paris.

In Spain the traffic code forbids motorists to alight from the off side in traffic.

The Real Edison

Was Very Human and Had An Engaging Personality

In a recent issue of Harper's, there appears an intimate study of Thomas Edison by one of his laboratory associates that will probably be an eye-opener to the public which knew the great inventor only by reputation. Interviewers, especially in late years, had pictured him as a somewhat mild-mannered, gentle old man, a patriarchal figure commanding respect and admiration; the magazine writers of gentlemen of the press laid it on rather thick and gave us the general impression that Edison was an immortal first and a human being afterward.

His intimates, of course, knew him for what he was and it is good that for the rest of us should likewise be in on the truth. For Edison was a rare spirit, full of an Elizabethan gusto. How many of us had regarded him as being more or less saintly—photographs of him somehow suggested that—and how pleasant it is to discover that he was full of the most engaging humors and traits imaginable. There was a vigor and virility about him that would have distinguished him from the general hum of mankind had he never become a famous inventor. He seems to have had his own ideas about every subject on earth and to have set them forth with a readiness of expression that did the listener's heart good.

There is a tendency to give the immortals their due more on the side of achievement than on character and personality; certainly that is true in Edison's case. To read Mr. Rosanoff's study of him is to appreciate Edison in the role of a man in which he was quite as successful as in the field of invention.—Detroit Saturday Night.

Rules For a Short Life

If Followed Chances Are Very Good For Success

To create the impression that you are a very busy man always speed up when approaching intersections.

When passing other cars pick out a suitable spot on a hill or curve. There's no fun in passing on the straightaway.

Use only half the road, but be sure it's the middle half. Then you won't run over the edge.

Considerable time may be saved in driving out of alleys by stepping on the gas just before reaching the sidewalk.

Pay no attention to grade crossings. Let the engineer do the worrying. He gets paid for watching the right-of-way.

Don't wait for the green light. It will be along in a minute, and, anyhow, a red one will do in a pinch.

Before they were married she couldn't bear to let him out of her sight. She loved him so well. After they were married she couldn't bear to let him out of her sight. She knew him so well.

Magistrate: "You are charged with breaking a chair over this man's head."

Prisoner: "I didn't mean to break the chair, Your worship."

Little Helps For This Week

Prayer is a character builder. Men are influenced by their associates. If they talk with wise men they get wisdom from them, power from the strong, gentleness from the kind, and sincerity from the humble. If men associate with God in prayer God will mould them. If we will spend time with Him, whether we are alone or in public places, he will work upon us and build Himself and His likeness in us.—Robert E. Speer.

Now abideth speech, example, prayer, but the greatest of these is prayer.—St. Bernard.

"O Thou by whom we come to God, The Life, The Truth, The Way, The path of prayer Thyself has trod; Lead, teach us how to pray."

Great Contribution To Progress Of World

Art Of Printing From Movable Type Man's Greatest Invention

In the midst of all the discoveries and inventions, it may not be generally known that the art of printing from movable type is perhaps the greatest invention ever devised by the mind of man. It provided the facilities for the giving of knowledge to the masses. Through the medium of books, pamphlets, newspapers and other forms of literature, knowledge previously in the hands of monks, spread throughout the world. To the mind of man it gave light where formerly darkness prevailed. It is almost impossible to estimate the progress that has been made in the world through this great invention.

The Poor Man's Friend.—Put up in small bottles that are easily portable and sold for a very small sum. Dr. Thomas' Electric Oil possesses power to concentrate form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

No Gypsy Royalty

Irving Brown, Columbia University professor, New York, has punctured the belief that gypsies have kings and queens who arrange royal marriages and such like. The professor, who spends his vacations among the Romany rovers, said that the talk about gypsy royalty is "an American fiction." It is against the spirit of gypsies to have rulers, he said.

Portugal's agricultural prospects are the best in many years.

Easy Teething

"Baby cut all his teeth with no trouble, thanks to BABY'S OWN TABLETS," writes Mrs. Thomas Shaw, Hamilton, Ont. Scores of other Mothers have written in similar vein.

Give YOUR child BABY'S OWN TABLETS for teething troubles, upset stomach, simple fever, colic, colds, constipation, sleeplessness, or whenever he is cross, restless and fretful. Easy to take as candy, and absolutely SAFE—see analyst's certificate in each 25-cent package. Over 1,250,000 packages sold in 1931.

Main Street

Don't miss the Harvest Dance on Friday night at Kiefer's Hall. Good four piece orchestra. Lunch included. Admission 35c.

Mr. and Mrs. E. W. Carter are receiving congratulations on the arrival of a 7-14 lb son on Monday, October 3rd. Mrs. G. N. C. Higginson is the nurse in charge.

Miss Alice Flewelling is a guest of Mrs. William Crowe of Wainwright.

The October meeting of the Irma Ladies Aid will be held on Thursday afternoon October 13th at the home of Mrs. W. H. Osterhout. All the ladies are cordially invited to attend.

We are very sorry to report the death of Mrs. Jas. Kennedy Sr. of the Ross district. The funeral was held on Tuesday, October 4th at the Roman Catholic church. Irma. We will endeavor to have a fuller account of Mrs. Kennedy's death and funeral for the next issue of The Times.

Mrs. Carbol and children spent the week-end in Edmonton.

Miss Bothwell has returned to resume her duties after spending her vacation.

Mrs. Sorgen of Holden is spending a few days with her mother Mrs. Maguire at Irma.

Miss Agnes Craig is in an Edmonton hospital having medical treatment.

Farmers! Do not forget that the elevators will be closed on Monday—Thanksgiving.

We are sorry to hear that Miss Haddie Huhman is not able to be in the store due to a bad cold.

Henry Kasten Jr. underwent an operation in the Wainwright hospital the first of the week.

Mr. and Mrs. Miles motored to Edmonton on Monday.

Mrs. Geeson's mother, Mrs. E. Allen, of Edmonton, is visiting at the Manse this week.

Mr. George Dawson is relieving his brother on a fox farm near Czar.

Mrs. Geeson had the misfortune to sprain her ankle last Sunday while visiting at Holden. She is still unable to get about.

The date of the W. A. meeting is October 18.

UNITED CHURCH NOTES

Thanksgiving services will be held on Sunday, October 9th, at Passchendaele, Roseberry and Irma. We cordially invite all our friends to these services.

Arrangements are made for the visit of Dr. Dobson to Irma. The date will be November 13th, and the plans are to have a rally service at Albert School in the afternoon and in Irma at 7:30 in the evening. Dr. Dobson is one of the foremost preachers of the United Church and we urge our friends to keep this date clear.

TRAIN SCHEDULES.

New schedules for the C. N. trains through Irma went into effect last Sunday, Oct. 2nd.

The changes:
No. 3 going west at 4:56 P. M.
Arrives in Edmonton at 8:40 P. M.
No. 4 going east leaves 10:33 A. M.
No. 1 going west does not stop, 3:06 A. M.
No. 1 going west does not stop, 10:31 P. M.

TUXIS AND TRAIL RANGERS
Your boy, We are interested in Him.

The C. S. E. T. programs have been designed to give boys and young men a variety of interests and activities which will tend toward development of a sound mind in a sound body. Athletics and group games, debates and badge work, stories and worship services combine to give every fellow room for self expression and interest.

Trail Rangers, for boys 14 and under are held in the Burns creamery every Friday night commencing October 8th. Make it your business to become a member, lads, for we have some fine times.

Tuxis is a new venture this year and is for fellows 15 years and over. With a little support we expect to put over a 'winner' program during the coming winter. Meetings commence at 7:45 P. M. on Saturday, October 8th. Be there!

QUINTE CHILDREN BAPTIZED

A lovely little ceremony took place on Sunday last in connection with the Quinte Rally Day Service, when the following babies and children were dedicated in infant baptism: Doreen Audrey Draper, Shirley Margaret Morr, Loraine Maxins, Ralph Henry, Allan Raymond, and Leslie Alexander Brown; Clara and Charles Henry Bowles.

Wastepaper Basket!

Here is a puzzle you can work on in your spare moments:

Five people are together, one is told to get apples and to get enough so he can give to the first, half of them, and half an apple over. To the second, half that is left and half an apple over, to the third half that is left and half an apple over, and to the fourth half that is left and half an apple over, and have one left for himself, and not cut an apple. How many apples in all? How many did each one get?

Heard at the poker party: "Did your wife get her face lifted?"
"No, she couldn't find the jack."

Women have a higher regard for cats than they do for their husbands, says a careful observer here. When a tomcat prowls around all night and shows up next morning she will pet him, but when her husband prowls out until late at night he doesn't get the same treatment.

Something to worry about—paleontologists cannot sing.

A chemist (a man) reports that he has at last been able to analyze woman, and here it is: Symbol—W. O.

MUNICIPAL DISTRICT OF BATTLE RIVER, No. 423

Notice Under Tax Recovery Act
